Session I: June 16 – June 28, 2020
Session II: June 30 – July 12, 2020
Session III: July 14 – July 26, 2020
Compensation: Negotiable DOE; includes room & board (if needed)

About the Position

The Athletic Trainer is a key member of the Medical Team at camp, working in conjunction with the Camp Nurse to run the Health Center and treat the needs of our campers. The most common ailments and injuries include: allergies, colds, coughs, sore throats, stomach pains, sprains, strains, muscle soreness, cuts, bruises, cramps, and fractures. The Athletic Trainer is expected to primarily handle the sports-related injuries but may also need to assist with other minor medical situations.

Certain times of day will require that the Athletic Trainer is in the Health Center, e.g. before sports programs to provide preventative taping, after sports to administer ice or other treatment. During other times of day the Athletic Trainer should be on the fields/courts or assisting with the care of other campers in the Health Center. Campers with serious ailments/injuries are transported to the local urgent care facility or hospital by camp staff.

There may be days when the caseload is light and there may be others when the caseload is heavy and you are busy all day long. Being the Athletic Trainer at summer camp is not a summer vacation, and you should apply only if you are prepared to work hard when needed.

The Medical Team is very much a part of the overall staff and you would be encouraged to become part of our community, participating in opening & closing days, eating meals in the Dining Hall, and building relationships with the campers and staff.

Our campers range in age from 8 to 17 years old. The Athletic Trainer should be experienced in working with children and excited about the opportunity to work in a summer camp environment.

If you have sports-minded children of appropriate camp age (entering grades 3-11), they would be welcome to join camp as campers.

This is a seasonal, temporary position that requires a minimum commitment of one 2-week session with a preference for commitment to two or three 2-week sessions.

Competitive salary is based on experience. Room and board is included as part of compensation but is negotiable if living off campus.

- Chaperone, as necessary, trips to local hospital or urgent care facility for more serious injuries and ailments

- Provide training to staff and campers on injury prevention and other topics as necessary

Qualifications

- Board Certified Athletic Trainer
- Experience working with children and young athletes
- Enthusiastic, compassionate, patient, and hard working
- Ability to work as both part of a team and independently
